

XCITE 3.9 LED

High resolution curvable 3.9mm pixel pitch LED screen panels

YSLV

AV · LED · EVENTS

KEY FEATURES

HIGH CONTRAST 3.9mm LED FOR INDOOR & OUTDOOR APPLICATIONS

Our new generation of high resolution LED suitable for indoor and outdoor projects. Curvable up to 5 degrees convex and concave.

REVOLUTIONARY JET BLACK MASK & BLACK FACED LEDs FOR THE ULTIMATE IN OUTDOOR VIDEO

The X3 LED Screen is a super high resolution LED display that provides stunning picture quality down to its revolutionary jet black mask. Achieving great contrast outdoors is all down to the colour of the surface of the LED panels. The X3 has a jet black coloured mask plus black SMDs meaning superior contrast and comparatively brighter images compared to standard outdoor LED screens.

SUPER HIGH PIXEL PITCH RESOLUTION

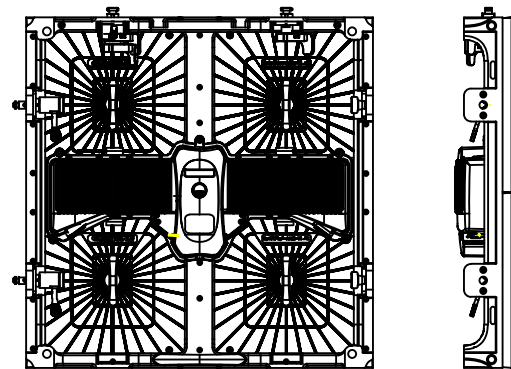

The latest in outdoor LED technology the X3 leaps forward delivering a 3.9mm pixel pitch for outdoor use - totalling 65,536 LEDs per sq meter. This is the perfect pixel pitch for high end outdoor projects where top of the range LED screen is required.

CURVABLE & WIDE VIEWING ANGLES

Excellent mask design allows for super wide viewing angles for viewing up close without colour distortion. Make your screen curve convex or concave up to 5 degrees for creative applications.

SPECIFICATIONS

Pixel Pitch	3.91 mm
Screen Type	Indoor / Outdoor
Brightness	4000 NITS (cd/m ²)
Viewing Angle	H 140° V 140°
Pixel Density	65,536 LEDs/m ²
Pixels/Panel	128 x 128 pixels
Pixel Configuration	1R1G1B Black SMD
Colour Processing	16 bit colour
Refresh Rate	> 3000 Hz
Panel Size	W 500 mm x H 500 mm x D 100 mm
Panel Weight	10 kg
Maintenance Options	Rear
Input Voltage	110~240V AC 50-60Hz
Power Consumption	Typical: 82W / panel - Max: 163W / panel
